

WHAT WE DO

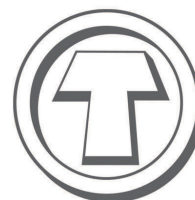

Create

Our aim is to offer customers a high quality product through high competence, reliability in meeting delivery deadlines, and efficiency in preparing our applications.

Innovate

In our factory, we learn every day how attention to detail can help improve compliance, increase safety, and enhance product efficiency by minimizing waste."

Termomeccanica Industrial Compressors

Termomeccanica Group

We Make your Compression Easier!

TM.I.C. designs and manufactures oil-injected, bare-shaft screw compressors for Air & Gas applications. Our compressors are internationally recognized for their outstanding performance, long lifespan, and innovation. Additionally, TM.I.C. ensures short delivery times and provides comprehensive service to its global customer base."

POLYMERIC ANTI-FRICTION PLATE

HIGH RELIABILITY IN BIOGAS UPGRADING APPLICATION

Our **polymeric anti-friction plate** is designed for exceptional durability, ensuring a long service life and significantly lower overhaul costs. This solution reduces the unit's specific power consumption, leading to improved energy efficiency.

At the heart of our company, our **R&D department** is continuously dedicated to developing new solutions tailored to our customers' needs. We collaborate closely with our clients to create products that not only meet but exceed expectations, providing unmatched value and performance."
